Dual LED Head Pro Light
DPL
Extra light power and flexibility. Great for lighting your flies in the vise for Digital Photography. You can mount this light directly to your vise or use the provided pedestal or c-clamp.

DELUXE WOODEN FLY TYING KIT
TOOL KIT
TZ798

Clear Cure Goo Pro Curing Light
CG1
Be sure to use the Pro Curing Light with all Clear Cure Goo products. Fly event material yellowing, cracking or popping. T light has been designed specifically for the CCG products CR123 Lithium batteries are required and range. T three AAA batteries are required and not included.

Clear Cure Goo Syringe KIT
CG2
The perfect way to step into the magic world of Clear Cure Goo! Each kit comes with one thick syringe, one thin syringe, one LED Cure Light, tips and caps. T three AAA batteries are required and not included.

Thin Clear Cure Goo Syringe
CG3
Clear Cure Goo Thin flows and smooths out much faster than the Flexible or the Thick and build up material in larger amounts as it does not flow as fast as the Thin or Brushable. Which means you don't have to constantly battle a sag when you have a large amount of material out. T thicker you go for material for everything saltwater.
10ml syringe

We are very pleased to be able to bring you the great products from Clear Cure Goo. They are the leader in the UV curing industry. All Clear Cure Goo products are manufactured in the United States from 100% non-toxic and solvent free chemicals.

Step 1
Apply any of the Clear Cure Goo Products.

Clear Cure Goo 3 Watt Premium Curing Light
CG14
The length of this light will set CCG much quicker and with less heat. Two CR123 Lithium batteries are required and not included.

Step 2
Hit it with the Pro Curing Light and you are done!

Pearly Flick Clear Cure Goo Syringe
CG5
Clear Cure Goo Fleck is similar to the consistency of the T thick but we have added flecks of gold, silver, green and blue pearlescent glitter. It provides just enough shimmer to a fly to get the fish's attention but not enough to appear unnatural.
10ml syringe

Flexible Clear Cure Goo Syringe
CG6
Tired of messing with flexible cements or Silicone? Don't want to wait for it to dry? Clear Cure Goo Flexible is your answer. It cures in 10-12 seconds for the entire fly and is soft, chewy and supple.
10ml syringe

Brushable Clear Cure Goo
CG7
The thought process behind creating the Clear Cure Goo Brushable was making a material you could use coating Cresse Flies with and that would smooth out rapidly once applied. Perfect examples are when you are using an EZ Body fly and want it to stiffen up, bonding mylar to foam, waterproofing flies or coating poppers.
15ml bottle

NEW!

Thin Squeeze
Clear Cure Goo
CG8

Clear Cure Goo Thin Squeeze flows and smooths out much faster than the Flexible or the Thick. It produces a smoother finish but also will penetrate materials like dubbing, and feathers, providing a stronger bond to them.

15ml bottle

HYDRO
Clear Cure Goo
CG9

HYDRO Clear Cure Goo has the consistency of a watery head cement. It cures in just 5 seconds, it can be used as a top coat for any of the Clear Cure goo materials, you can use it to cover any and all freshwater flies. It not only gives durability to delicate flies but gives it a lifelike translucency.

15ml bottle

Tack Free Squeeze
Clear Cure Goo
CG13

CCG Tack Free Products are best used in thin layers. Apply a small amount and cure. Continue to do so until you have reached the desired thickness.

15ml bottle

Tack Free Brushable
Clear Cure Goo
CG11

Clear Cure Goo Tack Free Brushable has the same consistency as the Clear Cure Goo Brushable. CCG Tack Free Products are best used in thin layers. Apply a small amount and cure. Continue to do so until you have reached the desired thickness.

15ml bottle

Tack Free Flexible
Clear Cure Goo
CG10

Clear Cure Goo Tack Free Flex is just that Tack Free. There is no need to add a top coat. It has the same consistency as the Clear Cure Goo Brushable. CCG Tack Free Products are best used in thin layers. Apply a small amount and cure. Continue to do so until you have reached the desired thickness.

15ml bottle

142	FL. YELLOW		

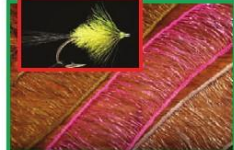

Mega Bait-Fish
Emulator Flash Pearl
MBEF

Thinner length on this material is 5.5" and is fused on one edge to make winding easy. Perfect for larger streamers or intruder style flies.

Pseudo Hackle™
LARGE XCH
X-LARGE
Can be used in many ways for salt or freshwater patterns.

3 yard pkg.

Pseudo Hackle™ 1/2"
PHN
Pseudo Hackle™ is ready to use out of the package. Trim one edge to shape, tie in and wind away. We have had this product manufactured out of bright triol fibers for a nice bright sheen.

4 yard pkg.

Pseudo Hackle™ 1/2"
PHW
At 1 1/2" wide it is ideal for larger patterns be it for fresh or saltwater.

4 yard pkg.

11	BLACK	199	KINGSFISH BLUE

yellowing, cracking or chipping. T lights
has been designed specifically for the CCG
products range. T three AAA batteries are
required and not included.

**Clear Cure Goo Syringe KIT
CG2**

The perfect way to step into the magic world of
Clear Cure Goo! Each kit comes with one thick
syringe, one thin syringe, one LED Cure
Light, tips and caps. T three AAA batteries are
required and not included.

**Thin Clear Cure Goo
Syringe
CG3**

Clear Cure Goo Thin flows and smooths out
much faster than the Flexible or the T thick and build
is one of our best selling products. It blends the
ability to apply a good amount of material on
a fly and to have it smooth out very nicely.
Perfect for wing cases, nymphs, midges and
just about anything.

10ml syringe

**Step 1
Apply any of the
Clear Cure Goo
Products.**

**Step 2
Hit it with the Pro
Curing Light and
you are done!**

**Clear Cure Goo 3 Watt
Premium Curing Light
CG14**

The strength of this light will set CCG
products quicker and with less tack. Two
CR123 Lithium batteries are required and not
included.

**Clear Cure Goo
Brushable Kit with Light
CG15**

The perfect way to step into the magic world of
Clear Cure Goo! Each kit comes with the
brushable CCG products, an LED Cure
Light, tips and caps. T three AAA batteries
are required and not included.

**Thick Clear Cure Goo
Syringe
CG4**

Clear Cure Goo Thick is perfect for creating
tail heads on flies or whenever you need to
use material in larger amounts as it does
not flow as fast as the T thin or Brushable.
Which means you don't have to constantly
battle a sag when you have a large amount of
material out. T clear you go to material for
everything saltwater.

10ml syringe

We are very pleased to be able to bring you the great products
from Clear Cure Goo. They are the leader in the UV curing
industry. All Clear Cure Goo products are manufactured in the
United States from 100% non-toxic and solvent free chemicals.

**Pearly Fleck Clear Cure
Goo Syringe
CG5**

Clear Cure Goo Fleck is similar to the
consistency of the T thick but we have added
flecks of gold, silver, green and blue
pearlescent glitter. It provides just enough
shimmer to a fly to get the fish's attention but
not enough to appear unnatural.

10ml syringe

**Flexible Clear Cure Goo
Syringe
CG6**

Tired of messing with flexible cements or
Silicone? Don't want to wait for it to dry?
Clear Cure Goo Flexible is your answer. It cures
in 10-12 seconds for the entire fly and is
Soft, Chewy and supple.

10ml syringe

**Brushable Clear Cure Goo
Syringe
CG7**

The thought process behind creating the Clear
Cure Goo Brushable was making a material
you could use coating Crease Flies with and
that would smooth out rapidly once applied.
Perfect examples are when you are using an
EZ Body fly and want it to stiffen up,
bonding mylar to foam, waterproofing flies or
coating poppers.

15ml bottle

**Thin Squeeze
Clear Cure Goo
CG8**

Clear Cure Goo Thin Squeeze flows and
smooths out much faster than the Flexible
or the Thick. T produces a smoother finish
but also will penetrate materials like
dubbing, and feathers, providing a
stronger bond to them.

15ml bottle

**HYDRO
Clear Cure Goo
CG9**

HYDRO Clear Cure Goo has the consistency of
a watery head cement. It cures in just 5
seconds, it can be used as a top coat for any of
the Clear Cure Goo materials, you can use it to
cover any and all freshwater flies. It not only
gives durability to delicate flies but gives it a
lifetime translucency.

15ml bottle

**Tack Free Squeeze
Clear Cure Goo
CG13**

CCG Tack Free Products are best used in thin
layers. Apply a small amount and cure.
Continue to do so until you have reached the
desired thickness.

15ml bottle

**Tack Free Brushable
Clear Cure Goo
CG11**

Clear Cure Goo Tack Free Brushable has the
same consistency as the Clear Cure Goo
Brushable. CCG Tack Free Products are best
used in thin layers. Apply a small amount
and cure. Continue to do so until you have
reached the desired thickness.

15ml bottle

**Tack Free Flexible
Clear Cure Goo
CG10**

Clear Cure Goo Tack Free Flex is just that Tack
Free. There is no need to add a top coat. It has
the same consistency as the Clear Cure Goo
Brushable. CCG Tack Free Products are best
used in thin layers. Apply a small amount
and cure. Continue to do so until you have
reached the desired thickness.
